

SPC Explorer RT™: A powerful statistical analysis software package with an easy-to-use interface.

SPC Explorer RT is designed specifically for real-time data entry with or without gages.

Key Benefits:

- Password-protected logon. Pre-defined user privileges required to access virtually all functions.
- Works with MS Access or SQL Server Databases. An offline database collects data when network is down.
- Data may be imported or linked from an unlimited number of sources, including through ODBC queries.
- Real-time data entry through keyboard, bar code reader, and a variety of gages and multiplexers including those offered by Starrett, Fowler, Mitutoyo, Brown & Sharpe and Federal.
- Easy to read color-coded data validation, and prompting for Assignable Cause, during data entry.
- Work Set view for real-time users (shown top right) provides simple interface with charts and data entry options pre-defined for each user's processes.
- Explorer view's navigation tree (shown bottom right) provides convenient viewing, adding and editing of all Work Sets, Processes, Characteristics, Users, Reports, Gages, and Analyses.
- Color-coded icons in the Process Monitor Chart allow supervisors to track many processes in a single view.
- Analyze effect of any Traceability item on control chart data using symbols to detect stratification. Construct Pareto and Pie charts on Traceability fields
- Affordable for everyone at your facility with inexpensive network, web data entry and web viewer licensing.

Why buy separate modules when one solution does it all? While some vendors require that you purchase separate modules for each type of users, Quality America's *SPC Explorer RT* provides the easy-to-use Data Entry capabilities expected for the real-time operational environment, as well as straight-forward Process Monitoring tools for your Supervisors, and detailed Process Analysis for your Engineers and Quality Analysts. *SPC Explorer RT is the one solution to meet all your SPC needs on the network or the web!*

Supported Chart Types/Features:

- Run Chart
- Individual-X Chart
- X-Bar and Range Chart
- X-Bar and Sigma Chart
- Process Capability
- Histogram
- Attribute Charts: Np, P, C & U Charts
- Pareto Diagram
- Scatter Diagram (Regression)
- Process Monitor
- Box and Whiskers
- Pie Chart
- Bulls-eye Chart
- Chart data based on Formulas
- Handles Normal and non-Normal Data
- Context Sensitive Help

Software / Vendor Support:

- **Wizards** take you through sets of operations in an easy-to-to follow, step-by-step fashion
- Help System and Product Tutorial provide detailed information on use and interpretation in a clearly written format.
- On-site and web-based Training is available to move your Process Improvement system to its most effective, efficient use.
- **FREE Tech Support.**
- 30-day satisfaction guarantee.

SPC Explorer RT™ Pricing (per License):

# of Licenses	Network / Web / Viewer
Single license	\$595 / \$300 / \$100
2-10 licenses	\$495 / \$300 / \$100
11-30 licenses	\$450 / \$300 / \$90
31-50 licenses	\$425 / \$275 / \$80
51-99 licenses	\$400 / \$250 / \$70
100 or more licenses	\$350 / \$225 / \$60
Maintenance Plans are	also available
